### Episode 3: Featured Ride - Chev El Camino Featured Member - Wimpie Senekal

For Transformation of the OLD LADY (Monstrosity).

It all began on the day that I was running from one place to another trying to find a drive train (i.e. motor and gearbox) for my FORD COURIER LDV.

With no luck being on my side I eventually ended up at a small scrap-yard on the outskirts of town and thought that this too was a dead end.

But as I was wandering around the yard my eyes focused on two Chevy EL-CAMINO's standing right in the corner and they were for sale.

After much negotiating a deal was struck on the blue Chevy.

After much joy and three years of good service from this lady, I was transferred from George to East London. Unfortunately rust followed the old lady and I decided to re-spray old faithful.

After a long time trying to make a decision as to the colour, and after much hard work and joy, she eventually ended being a Turquoise-blue.

Something to think about: All the wealth and beauty in the world cannot mean much if, as a nation, we do not instil a set of values that promotes respect for fellow man and respect for the rule of law.

Invariably, it is for the good of all.

Buckle up or eat glass. From Wimpie.
