Episode 6: Featured Ride - Chevy
Featured Member - Pat Eberhardt

After spending a weekend in PE hunting for a new project for myself, I didn't see anything that I wanted. At a Braai at the Bed and Breakfast where we were staying, Worsie told me that he had a Chev for Sale.

I was surprised to learn that the location of the car was about 500m away from my home. When we got back to East London I looked at the car and immediately knew this will be my next project.

I have since bought an engine from Kenny, various parts from Johan and a suspension from Leslie. My intention is to paint the car green but we'll see if it works out that way later.

Regards Pat
