Episode 8: Featured Ride - Datsun GX Coupe
Featured Member - Bruce Clayton

Well I've been a member of the club for two years and eventually I've found a project, a little GX Coupe. At the moment it's still in the form of a racing car. We will be keeping most of the racing kit in tact so we can use it at the club Gymkhanas, but the bodywork and interior will need to be restored.

This is somewhat of a family project as Kevin, Matthew (my son) and I, start getting the GX into shape. As you can see there's a lot of work to be done to get it back to it's former glory. Over the next two years Kevin will be teaching Matthew the finer art of "Driving" so that by the time he gets his drivers license he will already be an accomplished driver.

Matthew's dream has been to own a GX Coupe, so when he turns 18 it will become his, provided he puts in the work to help us restore it and learns to take proper care of it. At that stage I'll have to move on to bigger and more powerful things and get my own project, a big brother to the little GX. I'm thinking along the lines of a 200 SX or maybe even a bigger brother?

As far as the colour-scheme goes, this is still an ongoing debate between the three of us. Matthew likes Red, Kevin likes Blue and I'm still unsure. I suppose we'll just have to wait and see what happens!

Kind Regards
Bruce
