Episode 9: Featured Ride - Renault Floride
Featured Member - Kenny Willemse

A stranger is just a friend you do not know.

At the George Car Show I met a stranger who introduced himself to me as Naas. He owns the immaculately restored blue Renault R 10 that was on show. While chatted to him I told him that I was busy restoring a "Renault Floride". He then told me that he was in possession of a badly rusted Floride that came with lots of spare parts. Since I was interested in some of the parts I contacted Naas who told me that I could fetch the car, together with all the spares.

I immediately made plans and travelled down to St Francis Bay to collect the floride. I was pleasantly surprised when, not only was I given the floride and all the spares for free, but I was also put up in his chalet on the banks of the river for free. Naas really entertained me and treated me like a long lost friend.

It just goes to show that you don't only find good looking old cars at car shows, you also get to meet the generous people who own them. Thanks Naas, for your generosity and kindness.

Regards, Kenny
